The purpose of the Institute is to provide the best known facilities for blind children to secure an education adapted to their needs. Children who are totally blind or have vision so defective as to render an education by ordinary methods impracticable and who are capable of receiving instruction by the methods pursued in the Institute may be received upon application to the Board of Managers by their legal guardians.

The Institute is non-sectarian and offers a program of training for the blind child from kindergarten through high school, including both academic and vocational courses.

There is no restriction as to residence. From New York they may enter regularly as State pupils from the Greater City and the counties of Westchester, Putnam, Rockland, Suffolk and Nassau, being appointed by the State Education Department; from New Jersey, upon application in proper form to the New Jersey Commission for the Blind, and from other localities by special arrangement. All communications should be addressed to

From time to time, beginning in eighteen hundred and thirty-six, the Institute has been in receipt of legacies and donations which the Managers have set apart in the Legacy Fund. At the close of the fiscal year the Legacy Fund, including amounts received, both legacies and donations, and aggregating \$3,382,378.50, was represented by cash and investments in approved securities.

The Managers gratefully acknowledge the receipt of the following legacies: Estate of Ellen Gordon, \$500.00; Estate of Sophie W. Low, \$4,600.00; Estate of Constance Marks, \$20,000.00; Estate of Augustine J. Smith, \$1,000.00; and Estate of Caroline Stetson, \$20,000.00; and donations: Anonymous, \$500.00; W. G. Baumhogger, \$108.00; William Bennett, \$150.00; Mrs. Howland Davis, \$25.00; In Memory of Blanche and Solomon de Jonge, \$1,000.00; Mrs. Cleveland H. Dodge, \$100.00; Foreman Fabrics Corp., \$100.00; Edith M. Fox, \$25.00; Herbert C. Freeman, \$50.00; The Great Atlantic & Pacific Tea Company,

Bronx Branch, \$110.00; Duncan G. Harris, \$50.00; Charles Hayden Foundation, \$1,500.00; Mrs. Charles V. Hickox, \$46.00; Mr. and Mrs. Joseph L. Martin, \$100.00; Henry Pope, Jr., \$200.00; H. Harris Robson, \$214.00; George E. Roosevelt, \$100.00; Mrs. Arthur F. Schermerhorn, \$140.00; Gerby Seif, \$200.00; Marie Seitz, \$100.00; Roderick Stephens, Jr., \$1,000.00; H. C. Swezey & Son Motor Transportation, Inc., \$100.00; United Cigar-Whelan Stores Corp., \$360.00; Valve Pilot Corporation, \$150.00; William Bell Wait, \$578.00; Sibyl M. Warner, \$150.00; and Edith H. Werle, \$200.00.

The year covered by this report was another year of operation under wartime conditions. We believe that these conditions were met in a satisfactory manner and that we have been able to be of some assistance in helping both Army and Navy authorities to meet problems related to the care and rehabilitation of men in the armed services who had suffered visual handicaps.

In this connection we have had the honor of cooperating with both the Office of the Surgeon General of the Army and with the Office of the Surgeon General of the Navy. We believe that we have been particularly successful in the development of educational and vocational guidance adjustment programs for the war blinded. This work is continuing.

In the reports covering recent years we have made mention of the general expansion of our own vocational training and in the year now under review we developed a Diagnostic Clinic for aptitude testing which was an innovation in our field and has attracted widespread interest.

We continued the successful operation of a summer camp for children suffering from visual handicap and this year we should make special mention of the generous financial support which the public has given to this activity. We believe that even in time of war the operation of a summer camp for these children is more than justified.

Our scholarship students from other countries during this

year have come primarily from the Latin American countries and we have had the pleasure of visits by some outstanding persons coming from our neighbors to the south and engaged in their own countries, in our own field of activity. Among such visitors have been Señor and Señora M. Florentin of Venezuela, Dr. A. Grimberg of Chile and Señor and Señora A. Meza of Mexico.

The Managers of the Institute wish to take this opportunity to express to Dr. Frampton, the faculty and the staff their appreciation of the devoted service which has continued the operation of our school at a high level of efficiency in spite of the unusual problems and difficulties which are occasioned by wartime conditions.

HOWLAND S. DAVIS, President

WALTER K. EARLE, Recording Secretary

City of New York and County of Bronx, ss.:

HOWLAND S. DAVIS of said City, being duly sworn, saith: That he is President of The New York Institute for the Education of the Blind, and that the above report signed by him is true to the best of his knowledge and belief.

Sworn to before me this 31st day of August, 1944.

PRINCIPAL'S ANNUAL REPORT

ON THE PROGRESS OF THE INSTITUTE FOR THE YEAR ENDED AUGUST 31, 1944

(Including the report of the summer camp project)

To the Board of Managers,

The New York Institute for the

Education of the Blind.

GENTLEMEN:

This report covers the school year beginning September 1, 1943 and ending August 31, 1944. The enrollment during the year has been 97 boys and 94 girls. The complete statistical report to the Principal, presenting information upon the curriculum and program of the school for the year 1943-1944 is found on pages 29 to 32. The activities of the school continue to fall into two main branches: first, the continuation of high-standard academic program, and second, the services of the school to the war effort.

In connection with the regular work of the school, I am pleased to report that the results of the vocational and academic programs, operated by the staff of the school for blind children, have produced during the year a high quality of scholastic work and practical vocational results for the students in the school and the graduates of our academic and vocational departments. Many and varied educational trips were taken by the children of all the departments of the Institute during the fall, winter and spring months. The trips were correlated with classroom instruction. An unusually large number of children attended musical events in the city and visited the war industries. Holiday and monthly parties, for both the high school department and

the elementary school, were held in the gymnasiums of Van Cleve and Schermerhorn Halls. Our chorus continued to produce programs of excellence for public entertainment and appeared on numerous occasions over the radio, in churches, and at other public gatherings.

Our training program for teachers and workers in the area of the blind was carried on again with outstanding success. The majority of scholarship students this year have come from Latin American countries. The following countries were represented during the academic year: Mexico, Chile, Costa Rica, Colombia, Puerto Rico, and Venezuela. It is important to note that three of these scholarship students are leaders of work for the blind in their respective countries. Mr. Florentin is Director of the Venezuelan School for the Blind in Caracas. Mr. Abraham Grimberg is Director of the San Diego School for the Blind, San Diego, Chile. Mr. Alejandro Meza is Secretary of the National Commission for the Blind in Mexico.

Our research department, under the leadership of Dr. Clarence R. Athearn, has produced a number of interesting volumes during the year, some of which are already in print. The following is a list of publications published during the current year.

"The Improvement of Reading in a School for the Blind" by Dr. Clarence R. Athearn, Ph.D., Mrs. Hartley Campbell, A.B., and Mr. George Lavos, A.M.

"Volume 1 of the Vocational Training and Guidance Program of The New York Institute for the Education of the Blind"

"The School Assembly as an Educational Force" by the staff of the school.

The Summer Camp at Lake Wapanacki was opened on July third for the boys. During the month of August our girls attended the camp. The total enrollment at the camp for the season was 96. This is the sixth season for Camp Wapanacki and we are grateful to the Board of Managers and to the public for the generous support which has been

given our camp program. The number of campers this year was small due to the fact that a number of our older boys and girls secured summer jobs in the city. The camp serviced more of our younger children this year.

The activities of the school during wartime continue to include the participation of the students and the staff in war bond drives, the National War Fund drive and salvage programs. An increasing number of requests on the part of various State and Federal Agencies to assist in the development and extension of rehabilitation programs for the warblinded and other individuals were received during the year. The Principal has been called upon to take an active part in the planning of the rehabilitation service programs for the war-blinded of the Veterans Administration, through the Surgeon Generals' Offices of the United States Army and Navy.

In May of this year, the first group of recently blinded men of World War II, were resident in the Institute and cleared through our Vocational Aptitude and Guidance Clinic. Our clinic procedures were selected by the United States Army as an integral part of their rehabilitation program. Several members of our staff were given leaves of absence to assist the Surgeon General's Office in the establishment of curricula and programs to service these men. The procedure for the United States Navy is being developed along much the same lines and as this report goes to press, the first group of Navy men for clinic services arrive at the Institute.

During the year Miss Josephine Moody, who first came to our school in 1925, retired. She served loyally and faithfully as an efficient teacher in our elementary school for over 19 years. We extend to her our deep appreciation for her valuable services to blind children and we wish for her a well-earned rest.

Miss Gloria Van Natta, a teacher of special students in this school for a number of years, died on February 12, 1944. Miss Etta Lewis, a former teacher in our elementary school and retired from service in the Institute in 1938, passed away at her home this year.

During the current school year the development of our Student Cabinet and the use of student labor to aid in the maintenance of the school's work program, have provided a new experience of cooperation between teachers, students and administration. Without the constant, earnest and loyal support of the teachers, members of staff and pupils, the work of the Institute would not have been carried on in wartime with such effectiveness.

To our Board of Managers, who have loyally and faithfuly given their support to the Principal and to the staff, we owe a debt of gratitude.

Respectfully submitted,

M. E. FRAMPTON, Principal.

Number of examination days 7	Answer papers written207
Pupils examined 58	Answer papers claimed179
Subjects covered 23	Answer papers allowed by Regents. 178

The above table presents the results of Regents Examinations held during the year. Pupils' answers to Regents Examinations are written in braille and large 24 point type, and are corrected by the teachers of the school, then sent to Albany for review by the Regents examiners. During this year there were 179 examinations claimed by the teachers of the Institute of which 178 were allowed by the Board of Regents. The table below shows the results of these examinations held from 1939 to 1944:

	No. examined	No. claimed	No. allowed	Per cent claimed of No. examined	Per cent allowed of No. examined	Per cent allowed of No. claimed

ALMA MATER

Through the long years a beacon light, O Alma Mater dear!

Thy sons and daughters have been led By thee in paths made clear.

And life grows more beautiful And darkness with its pall

At thy behest

Is light before our way.

All the years we have spent with thee Are years we'll ne'er forget;

Our hearts are full of memories

Of happy days.

Alma Mater! Alma Mater! Alma Mater! For ever more we sing thy praise!

We rejoice in the faithful ones Who labored for thy fame;

A hundred years of toil and care Were given in thy name.

Our hearts burn with gratitude For those who went before;

Their spirit lives

With us for ever more.

We adore thee, we honor thee, We pledge our love anew; We keep aglow the memories

Of happy days.

Alma Mater! Alma Mater! Alma Mater! For ever more we sing thy praise!

DEDICATION OF A NEW FLAG BY BLINDED MARINE HEROES FROM IWO JIMA

THE NEW YORK INSTITUTE FOR THE EDUCATION OF THE BLIND

FOUNDED 1831

OPENED 1832

999 PELHAM PARKWAY NEW YORK 67, N. Y.

The purpose of the Institute is to provide the best known facilities for blind children to secure an education adapted to their needs. Children who are totally blind or have vision so defective as to render an education by ordinary methods impracticable and who are capable of receiving instruction by the methods pursued in the Institute may be received upon application to the Board of Managers by their legal guardians.

The Institute is non-sectarian and offers a program of training for the blind child from kindergarten through high school, including both academic and vocational courses.

There is no restriction as to residence. From New York they may enter regularly as State pupils from the Greater City and the counties of Westchester, Putnam, Rockland, Suffolk and Nassau, being appointed by the State Education Department; from New Jersey, upon application in proper form to the New Jersey Commission for the Blind and important other localities by special arrangement. All communications should be addressed to

Of Capital—			

From time to time, beginning in eighteen hundred and thirty-six, the Institute has been in receipt of legacies and donations which the Managers have set apart in the Legacy Fund. At the close of the fiscal year the Legacy Fund, including amounts received, both legacies and donations, and aggregating \$3,408,271.57, was represented by cash and investments in approved securities.

The Managers gratefully acknowledge the receipt of the following legacies: Estate of Miriam L. Mooney, \$3,535.37; and the Estate of Constance Marks, \$5,319.42; and donations; Edith H. Werle, \$200.00; Henry Pope, Jr., \$200.00; Mrs. Charles V. Hickox, \$140.00; William Bennett, \$150.00; The Great Atlantic & Pacific Tea Company, Bronx Branch, \$100.00; Mr. and Mrs. Joseph L. Martin, \$250.00; Charles Hayden Foundation, \$1,500.00; Foreman Fabrics Corp., \$100.00; Sibyl M. Warner, \$150.00; Employees of American Society of Composers, Authors and Publishers, \$117.00; Lawrence D. Bell, \$100.00; Camp League for Underprivileged Children, Inc., \$360.00; Mrs.

W. Cassidy, \$100.00; Angel C. Chegwin, \$114.79; Teachers and Students of Christopher Columbus High School, \$125.00; Criterion Service, \$100.00; Employees of Delaware and Hudson Railroad Corp., \$138.25; Frances League for Infants, \$160.00; Kate M. Ladd, \$100.00; Lions Club of the Bronx, \$300.00; H. G. Silleck, Jr., \$100.00; Zena Slater, \$100.00; Social Service Committee of Reformed Church, \$204.28.

During this year the New York Institute enjoyed the privilege of being allowed to cooperate with the United States Navy in relation to its program with handicapped service men and service women, and particularly with that part of the program having to do with the rehabilitation of service men who had incurred visual handicaps. Approximately one hundred members of the Navy and Marine Corps have been in residence at the New York Institute for short periods and have made use of the services available in our diagnostic clinic. We are proud to have been able to contribute to the rehabilitation and social adjustment of these men.

Our policy of opening our doors to students from other countries has been somewhat restricted by war conditions and we have had more than a normal percentage of such students from Central and South American countries. It is interesting to note that most of these students return to their own country to carry on work in the field of education and betterment for the handicapped.

We have continued our policy of having a summer camp, believing that this activity is more than justified in time of war as well as in the more normal times of peace. Our camp this year has been able to accept children from other agencies as well as children from our own school, and we hope that this condition will continue in the future.

It is becoming obvious that if the New York Institute is to perform its full obligation it must increase, as soon as conditions become more normal, the facilities which it has to offer, and must improve and enlarge its present physical

equipment. As soon as possible its financial resources must be increased so that the logical development of its work will not be handicapped by lack of adequate funds.

On October 27th, 1944 Dr. Frampton was commissioned a Lieutenant Commander in the Hospital Corps of the United States Navy, and more recently he has been promoted to the rank of Commander. As part of his duty has required attendance at the New York Institute, we have not entirely lost his continued supervision of our work. This has been a fortunate circumstance for the school and has raduced the difficulties which might otherwise have arisen in relation to his leave of absence. Nevertheless, his duty with the Navy would have presented a number of difficult problems if it had not been for the efficient and cooperative effort of his faculty and staff, the members of which have been so unselfish and diligent in their efforts that the work of the school has continued unimpaired in quality, and we can look back on a year which has not been easy but has been most satisfactory. The appreciation of the Board of Managers is extended to the faculty and staff of the school as well as to our many friends who, by their interest and financial support, have enabled our work to continue.

A BLINDED SAILOR LEARNING A NEW INDUSTRIAL PROCESS IN OUR RE-TRAINING PROGRAM

PRINCIPAL'S ANNUAL REPORT

ON THE PROGRESS OF THE INSTITUTE FOR THE YEAR ENDED AUGUST 1, 1945

(Including a Report of the Summer Camp)

To the Board of Managers
The New York Institute for
The Education of the Blind

Gentlemen:

The period covered by this report began September 1, 1944 and ended August 31, 1945. The school enrollment for this year has been 97 boys and 102 girls. The full Statistical Report of the Principal, showing the curriculum taught during this school year and other aspects of the program will be found on pages 37 to 39. The general program of the school emphasizes three major efforts. The first is the academic program which has been continued on a high level during the year. The second is the vocational training program including pre-vocational courses and advanced shop courses. The third covers the various extracurricular activities of the school in the interest of the war effort.

During the past school year, I am pleased to report that all phases of the above program have been carried on with splendid results. During the year, our blind children have been able to complete their academic programs with distinction. Our vocational training courses have been further expanded and correlated with placement procedures in industry. The graduates of this year's class have all been placed in industry or are attending colleges. An increasing number of educational and vocational field trips were taken by children in all departments of the Institute during the fall, winter and spring terms. All of these field trips were closely correlated with the classroom instruction.

AN EDUCATIONAL FIELD TRIP FOR THE PUPILS OF VAN CLEVE HALL

The usual holiday and monthly parties for all school departments from the kindergarten through the high school were held in the various houses or in the gymnasia of the school. Our chorus presented outstanding programs at public appearances and over the radio. This year's chorus had the unique privilege of singing with the Symphony Orchestra in Carnegie Hall. The chorus made its annual appearances at several churches and at public gatherings. We believe that one of the outstanding choruses in the history of the Institute's music work was developed during this year.

Our training school program for workers and teachers for the blind and correlated areas of the handicapped has been carried on with unusual vigor this year. Most of our Latin American scholarship students have returned to their various countries to take up work with the blind and to administer nationwide programs.

Visitors to the Institute and students in the field of the blind have been many and varied. It is with some satisfaction that we report the contribution of the Institute in making available to people from other lands and from other states what information and experience we have had in the education and care of the blind. This contribution should result in better work and more effective interest in the welfare of the handicapped population throughout the world. During the year numerous Commissions and study committees from various States of the Union have visited the grounds, inspected buildings, programs and materials.

Our Research Department has continued to develop monographic literature on the subject of the blind. The following monographs and mimeographed material were recently published:

Instruction Manual—Directions for Administering
Manual and Mechanical Aptitude Tests
Guidance and Diagnostic Clinic Record Forms
The School Assembly as an Educational Force

Our Camp Wapanacki opened on July 2nd for its seventh season. In July there were 50 boys in attendance and in August 72 girls were at camp. We are grateful to the Board of Managers and to the generous public for the interest and support which has been given to our camp program. The number of blind children we were able to send to camp this year was increased due to the splendid financial support which was given. The Principal considers the summer camp program one of the most important contributions to the education and care of blind children.

The extra curricular activities of the school during war time continued to include the participation of students and staff in war bond drives, the National War Fund drive, various war salvage programs and in local community functions.

In February 1945, Miss Mary Schoonmaker, a beloved friend and teacher in this school for many years, passed away. Her contribution to the education and happiness of blind children will long be remembered.

Mr. Walter G. Herrick, shop teacher and housefather, passed away in September, 1944. Mr. Herrick brought to his relationships with the students an unusual understanding and a wealth of practical experience. His passing was an irreparable loss.

Since September, 1944, the Institute has serviced 15 groups of blinded Naval and Marine personnel, totaling in all over 90 men. These groups of men were in residence at the Institute for a period of two weeks. During these periods they have lived and worked with our teachers and our older blind students. They have been processed through our Vocational Aptitude and Guidance Clinic and guidance profiles have been prepared for each man. Our Clinic procedures are an integral part of the Rehabilitation Program of the United States Navy. In October the Principal was commissioned in the United States Naval Reserve and is serving at present on leave of absence from the school as Chief of the Special Service Division, Rehabilitation Branch,

Bureau of Medicine and Surgery of the United States Navy. The program of general rehabilitation of blinded service personnel was inaugurated by the Institute and will remain one of its landmarks of public service.

During this school year we continued to use student labor on the grounds and in the buildings of the Institute. This labor aided greatly in the maintenance of the school. It likewise made for better cooperation between teachers, students and administration and provided valuable work experience for the students themselves.

The Principal is grateful for the earnest and loyal support of the teachers, members of the staff and the pupils; and for the continued interest and effective cooperation of an active Board of Managers, without whose support the work of this staff in the interest of blind children would not have been possible.

Respectfully submitted,

MERLE E. FRAMPTON, Principal

The above table presents the results of Regents Examinations held during the year. Pupils' answers to Regents Examinations are written in braille and large 24 point type, and are corrected by the teachers of the school, then sent to Albany for review by the Regents examiners. During this year there were 186 examinations claimed by the teachers of the Institute all of which were allowed by the Board of Regents. The table below shows the results of these examinations held from 1940 to 1945:

ALMA MATER

Through the long years a beacon light,

O Alma Mater dear!

Thy sons and daughters have been led

By thee in paths made clear And life grows more beautiful

And darkness with its pall

At thy behest

Is light before our way.

All the years we have spent with thee

Are years we'll ne'er forget;

Our hearts are full of memories

Of happy days.

Alma Mater! Alma Mater! Alma Mater! For ever more we sing thy praise!

We rejoice in the faithful ones Who labored for thy fame;

A hundred years of toil and care

Were given in thy name. Our hearts burn with gratitude For those who went before;

Their spirit lives

With us for-ever-more.

We adore thee, we honor thee, We pledge our love anew; We keep aglow the memories

Of happy days.

Alma Mater! Alma Mater! Alma Mater! For ever more we sing thy praise!

THE NEW YORK INSTITUTE FOR THE EDUCATION OF THE BLIND

FOUNDED 1831

OPENED 1832

999 PELHAM PARKWAY NEW YORK 67, N. Y.

The purpose of the Institute is to provide the best known facilities for blind children to secure an education adapted to their needs. Children who are totally blind or have vision so defective as to render an education by ordinary methods impracticable and who are capable of receiving instruction by the methods pursued in the Institute may be received upon application to the Board of Managers by their legal guardians.

The Institute is non-sectarian and offers a program of training for the blind child from nursery school through high school, including both academic and vocational courses.

There is no restriction as to residence. From New York they may enter regularly as State pupils from the Greater City and the counties of Westchester, Putnam, Rockland, Suffolk and Nassau, being appointed by the State Education Department; from New Jersey, upon application in proper form to the New Jersey Commission for the Blind, and from other localities by special arrangement. All communications should be addressed to

From time to time, beginning in eighteen hundred and thirty-six, the Institute has been in receipt of legacies and donations which the Managers have set apart in the Legacy Fund. At the close of the fiscal year the Legacy Fund, including amounts received, both legacies and donations, and aggregating \$3,983,428.50, was represented by cash and investments in approved securities.

The managers gratefully acknowledge the receipt of the following legacies: Estate of Constance Marks, \$2.95; Estate of Miriam L. Mooney, \$42.64; and Estate of Anna C. Renwick, \$15,000.00; and donations: William Bennett, \$100.00; Mark Tarlow, \$50.00; Candler Cobb, \$50.00; Brez Foundation, \$500.00; Supreme Skein Dyeing Corp., \$25.00; Henry Pope, Jr., \$200.00; Joseph L. Martin, \$100.00; Gertrude H. Thorne, \$50.00; Max Schott, \$25.00; A. M. Haas, \$25.00; Herbert C. Freeman, \$50.00; A. C. Chegwin, \$30.00; Greater New York Fund, \$1,673.99; Samuel H. Kress Foundation, \$50.00; Ogden Brouwer, Jr., \$50.00; Mutual Drug Sundry Co. (G. H. Schroder), \$25.00; William M. Byrnes, \$25.00; Harriett P. Schermerhorn, \$50.00; K. A. Meyer, \$25.00; Helene Frocks, Inc., \$25.00; Newman Bros. & Kohn, Inc., \$25.00; S. Zaleschitz Co., \$50.00; Mrs. Sterling Boos, \$1,000.00; International Business Machines Co., \$200.00; Community Church of the Circle, \$75.00; Mrs. Cleveland Dodge, \$25.00; Millrose Athletic Association, \$25.00; and Florence Rae, \$25.00.

In common with most other private educational institutions the Institute continues to feel the pressure created by reduced income on investments and increased costs of operation. If private management is to be maintained this situation must be corrected by increased endowment made available to the Board of Managers by generous friends who are interested in the maintenance of a high standard of education and care for blind children.

During the year just completed we have begun to approach a return to normal operation after several years of adjustments due to the conditions occasioned by the war.

A highly successful camp season—our eighth—was completed in August. The camp fund was well supported by a generous public.

The Institute continued to enlarge its services by opening in September, 1946, a Nursery School for blind children. Through this medium we are able better to prepare blind children for formal education when they reach

regular school age. Establishment of the Nursery School will guarantee a normal and happy childhood for many blind children and we believe that it will become an important force in our whole educational process. We owe to these children every possible chance for the best start in life.

The Board of Managers were delighted that at the beginning of the year Dr. Frampton, the Principal, was relieved of his Naval duties as Chief of Special Services for the Bureau of Medicine and Surgery and returned to his position at the Institute. It is a source of great satisfaction to the Managers that he was able to use his experiences to the benefit of the severely handicapped of the Naval Service, as is fully recognized in the following letter from Vice-Admiral Ross T. McIntire, Surgeon General of the Navy:

BUREAU OF MEDICINE AND SURGERY

Navy Department Washington 25, D. C. January 28, 1946

Mr. Howland S. DavisPresident, The New York Institute for the Education of the Blind11 Wall Street, New York City

Dear Mr. Davis:

On the occasion of the release of Doctor Merle E. Frampton from active duty in the Navy and his return to his duties at the Institute, permit me to express to you and through you to the Board of Managers the sincere appreciation of the Bureau for the wholehearted cooperation and assistance which has been extended in our care of the blinded of the Naval Service.

The period these patients have spent at the Institute has not only been one of study and counseling, of inestimable value in aiding them in the difficult adjustment they must make to their loss, but it has also been an interlude in their necessarily prolonged hospitalization during which they lived in civilian surroundings and came into intimate contact with situations they must face after they return to their homes. The Institute as an organization has very generously made all of its facilities available and has expended its funds, and the staff as individuals have unselfishly taken the personal interest and made the personal efforts which were so necessary to make the program the success it has been. By releasing Doctor Frampton to military leave, you made available to our Rehabilitation Program as a whole the services of a man whose contribution has been of the greatest value.

This undertaking is one in which the Institute may justly take pride as a sincere and effective service to the personnel of the Naval Service who had the misfortune to lose their sight in the defense of our country. You have the continuing gratitude of the men themselves and of the Bureau of Medicine and Surgery.

Sincerely yours,

(Signed) ROSS T. McINTIRE.

Vice-Admiral (MC)

Surgeon General, U. S. Navy

The Managers are deeply grateful to the faculty and staff who during the war period and the difficult days of the post war era have, by their loyalty and unselfish labors, written a new chapter in the high and worthy calling of educators of the blind, and thus made it possible for the Institute to continue without interruption its high quality of service to blind children.

PRINCIPAL'S ANNUAL REPORT

ON THE PROGRESS OF THE INSTITUTE FOR THE YEAR ENDED AUGUST 31, 1946

(Including a Report of the Summer Camp)

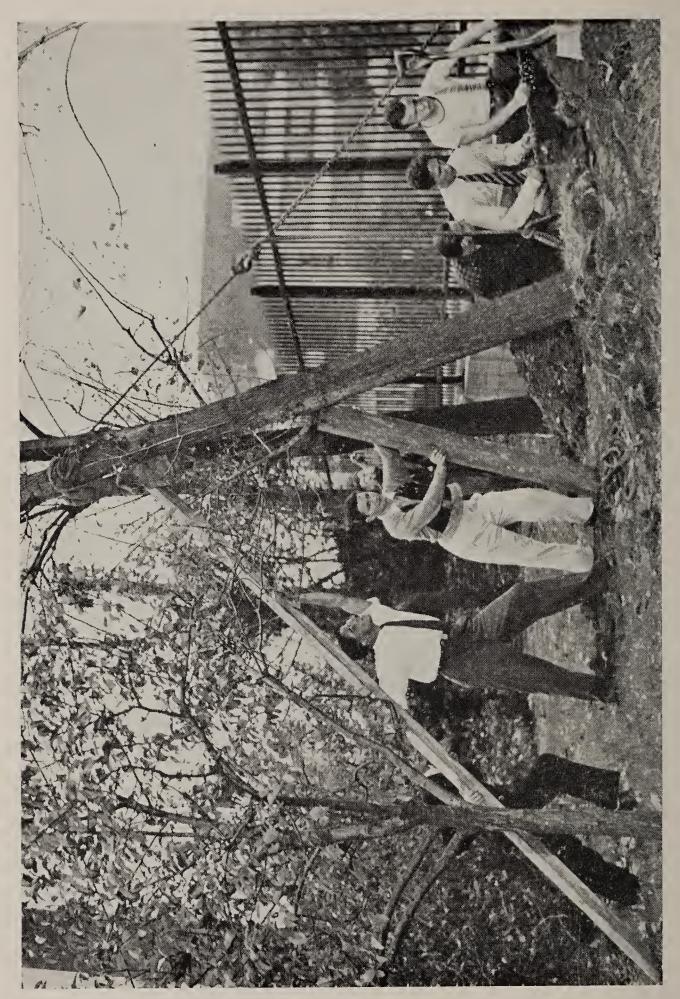

To the Board of Managers
The New York Institute for
The Education of the Blind

Gentlemen:

The period covered by this report began September 1, 1945 and ended August 31, 1946. The school enrollment for this year has been 86 boys and 90 girls. On pages 37 and 40 there will be found the statistical report of the Principal, which will show the curriculum offered to pupils during this school year and other detailed information concerning the program of the school.

1945-46 was our first school year following the completion of the second World War. During the school year, our blind children were able to complete their academic and vocational programs with distinction. The faculty and staff have attempted this year to reorganize and rebuild some of the courses which had to be omitted during the war years. The usual extra-curricular activities of the school year were carried on with intense interest on the part of the students. The educational and vocational field trips to all types of industrial, educational and social organizations throughout the city were arranged for children from all departments of the Institute during the fall, winter and spring sessions. These field trips continue to be as closely related to our classroom instruction as is possible.

Throughout the year, our holiday parties, our regular monthly parties and our spring picnics for all departments

BLIND BOYS HELPING WITH THE MAINTENANCE WORK OF THE SCHOOL

were held in various houses on the grounds of the Institute and at various recreation spots throughout the Greater City.

During the summer the Institute undertook a free distribution of the New York Point music and books still remaining in the music library. Over three thousand musical selections and one hundred and seventy-five books were sent out in answer to requests from twelve different states and several from Canada.

Our senior chorus had an unusual number of outside engagements during the school year; singing over the radio, at public gatherings and in churches. Our children presented their work to the public with their usual high quality performance.

At the beginning of this school year it was obvious that our training program for workers and teachers for the blind and other closely connected areas of the handicapped must be reopened and developed to the standard our program had achieved prior to the beginning of World War II. Numerous scholarship students were enrolled from foreign lands as well as from the United States. Several of these students have returned to their native countries to carry on work for the blind under their respective governments. Others will return during the coming year after completing their academic work and their special training.

During the year, the Institute has been host to an outstanding group of guests and visitors from all parts of the world. An analysis of our visitors' roster shows visitors from nineteen Latin-American republics and from eleven foreign countries or states other than Central and South America. Visitors from practically every state in the Union, including some fifteen superintendents with their wives and staff members from blind schools in this country, are recorded for the year.

Two state commissions, which are charged with the responsibility of building new schools or arranging programs for the blind in their respective states, have been the guests of the Institute during the current year. Numerous federal

BOY SCOUT TENT LINE AT CAMP WAPANACKI

and state officials have visited the Institute to consult with the Principal and members of the staff concerning programs for the blind.

Camp Wapanacki opened on July 1st for its eighth season. During the boys' camping season, there were 43 boys in attendance and during the girls' camping season, 52 girls. This year we are most grateful to a generous public for their interest and support which has made this camp possible. We look forward to the continued service of the camp as a part of the Institute's contribution to the education and care of blind children.

The Institute takes just pride in its contribution to the blinded Naval, Marine and Coast Guard personnel. The program entered its second year with the beginning of our session in 1945. In July, 1946, we completed our part in the rehabilitation program with the United State Navy. I believe it worthy of note to present herewith a letter received from the Honorable John L. Sullivan, Assistant Secretary of the Navy for Air.

22 April 1946

Dear Dr. Frampton:

In behalf of the Navy, I wish to express sincere appreciation for the excellent work accomplished by The New York Institute for the Education of the Blind. Your service in helping to restore war blinded Navy and Marine Corps veterans to useful, normal lives was invaluable.

No injury can be so disabling or disheartening as the loss of one's eyesight. To an active young American sudden blindness comes with dreadful impact. Recovery from this shock and ultimate readjustments are both difficult and painfully slow.

But the New York Institute was quick to come to our aid in the problem of rehabilitating these sailors and marines. A cooperative program was worked out between the Institute and the Navy by which 144 sightless veterans were sent from the Naval Hospital in Philadelphia to the New York Institute as resident guests. Remaining for periods of two to three weeks these veterans lived with young people accustomed to blindness. And they learned the courage and hopefulness with which the blind face life. They took part with the blind students at parties and dances. They played games and engaged in sports, both indoors and outdoors.

The Institute's diagnostic clinic studied the men's inclinations and aptitudes and gave them advice regarding future careers.

At war plants they visited blind workers, and were given a trial at running machines. They discovered that they could still do constructive, useful work.

Surely no experience could have done more to give these veterans new hope and to speed their readjustment.

The cooperative program carried on by the Institute and the Navy has been concluded. The task was difficult. Its reward is found in the heartfelt gratitude of the men of the Navy and Marine Corps whom the Institute has helped.

Sincerely yours,
(Signed) JOHN L. SULLIVAN,
Assistant Secretary of the Navy in the Air.

DR. MERLE E. FRAMPTON, Principal

The New York Institute for The Education of the Blind 999 Pelham Parkway, The Bronx New York City

As a part of this general program of rehabilitation of blinded service personnel, the Institute assisted the Navy in preparing a manual entitled "Guide for the Newly Blinded," published by the Bureau of Medicine and Surgery of the United States Navy in the spring of 1946.

During the spring of the year, the student body cooperated with our staff in the maintenance of our buildings and grounds and without their help it would have been difficult for us during this period of extreme labor shortage to have kept our buildings and grounds in such good condition.

In the past year, a number of our students have done successful work in college. Outstanding among this group is Miss Athene Healy who is attending Sarah Lawrence College and concentrating on work in creative writing. The college reports that she shows definite promise in this field. Robert M. Rossiter, another alumnus of the Institute, received his Bachelor's Degree with honors from Notre Dame University last spring, having completed the last two years of his university work in slightly over a year.

During this transitional year from war to peace, the Principal is grateful to the teachers of the Institute and members of the staff for their continued cooperation in the common interest of the Institute. It has been through the mutual cooperation and support of all those who have a sincere interest in the education and care of blind children that the achievements of the year have been possible.

Respectfully submitted,

M. E. Frampton, Principal

ALMA MATER

Through the long years a beacon light, O Alma Mater dear!

Thy sons and daughters have been led

By thee in paths made clear And life grows more beautiful

And darkness with its pall At thy behest

Is light before our way.

All the years we have spent with thee

Are years we'll ne'er forget; Our hearts are full of memories

Of happy days.

Alma Mater! Alma Mater! Alma Mater! For ever more we sing thy praise!

We rejoice in the faithful ones Who labored for thy fame;

A hundred years of toil and care Were given in thy name.

Our hearts burn with gratitude For those who went before;

Their spirit lives

With us for ever more.

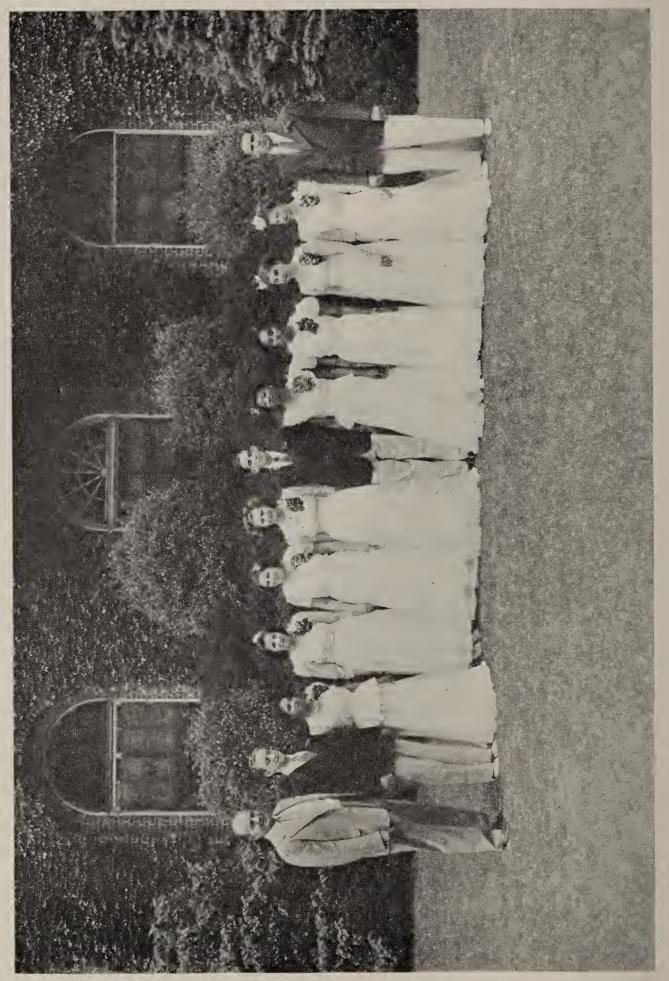

We adore thee, we honor thee, We pledge our love anew;

We keep aglow the memories

Of happy days.

Alma Mater! Alma Mater! Alma Mater! For ever more we sing thy praise!

TENTH ANNIVERSARY CLUB

THE NEW YORK INSTITUTE FOR THE EDUCATION OF THE BLIND

We are gathered here today to pay special honor to the members of our faculty and staff who have completed ten years of service to The New York Institute for the Education of the Blind.

To the honored guests, those who have reached or passed the ten-year milestone of service, I dedicate this occasion in recognition and appreciation of their long and meritorious service to the cause of the blind.

To these men and women whose loyalty, understanding and cooperation have been a source of inspiration and gratification to me throughout my ten years at the Institute, I owe a personal debt of grateful appreciation.

Henceforth, the first Friday in October of each year shall be designated and fittingly celebrated as "Faculty-Staff Day." A day which, in part, will be dedicated to the honoring and welcoming of new ten-year club members who will have become eligible for membership through their completion of ten years of service to the Institute. M. E. Frangeton

The purpose of the Institute is to provide the best known facilities for blind children to secure an education adapted to their needs. Children who are totally blind or have vision so defective as to render an education by ordinary methods impracticable and who are capable of receiving instruction by the methods pursued in the Institute may be received upon application to the Board of Managers by their legal guardians.

The Institute is non-sectarian and offers a program of training for the blind child from nursery school through high school, including both academic and vocational courses.

There is no restriction as to residence. From New York they may enter regularly as State pupils from the Greater City and the counties of Westchester, Putnam, Rockland, Suffolk and Nassau, being appointed by the State Education Department; from New Jersey, upon application in proper form to the New Jersey Commission for the Blind, and from other localities by special arrangement. All communications should be addressed to

REPORT

of the Board of Managers of The New York Institute for the Education of the Blind

To the Honorable the Legislature of the State of New York:

The Managers of The New York Institute for the Education of the Blind, in compliance with the provisions of the Act of the Legislature, respectfully submit their report for the fiscal year ended June 30, 1947.

The following is a summary of the receipts and disbursements for the year.

GENERAL FUNDS

DISBURSEMENTS

Of Capital— Securities Purchased, etc.....\$1,201,568.00 Of Income— Maintenance\$338,766.48 Professional Services, Commissions, Of Funds— Printery 605.46 Camp Wapanacki..... 36,232.07 Buddies Inc. 191.78 37,029.31 1,586.222.33 Cash Balance, June 30, 1947 Capital Fund 86,570.82 Camp Wapanacki ... 19,372.46 Printery 373.93 Buddies Inc. 190.22 Principal's Imprest Fund..... 6,000.00 112,507.43 Total \$1,698,729.76 From time to time, beginning in eighteen hundred and thirty-six, the Institute has been in receipt of legacies and donations which the Managers have set apart in our Capital Fund as endowment. At the close of the fiscal year there was on hand \$112,507.43 in cash and \$4,055,532.33 invested in approved securities.

The Board of Managers are deeply grateful for the receipt of donations from interested friends during the current and past years. Owing to the necessity for economy and the fact that this year's contributions to the amount of \$55,473.13 were received from 7,190 donors, it seemed impractical to list all the names of our many friends. Our appreciation of this loyal support of the work of this school needs no further evidence.

The New York Institute, after more than a century of service to the blind, has felt the pressure of increasing costs of operation more seriously this year than in any year during the past decade. The need for new sources of income is great and it is the hope of the Board of Managers that many generous friends who are interested in maintaining the work of this school will assist in meeting the cost of its operation and maintaining the high level of educational service to blind children.

On January 1st, 1947, Mr. Howland S. Davis resigned as President of the Board of Managers after fifteen years of distinguished service. Prior to his becoming President, Mr. Davis had served as Treasurer of the Institute from 1925 to 1932. The Institute is fortunate in having Mr. Davis as one of the Managers so that we may have the benefit of his experience and interest. The Board of Managers, faculty, staff and the student body expressed their appreciation for the services of Mr. Howland S. Davis in the form of resolutions and tribute was paid to him in the following letter from the Governor of the State of New York.

STATE OF NEW YORK Executive Chamber Albany

February 6, 1947.

Thomas E. Dewey Governor

Mr. Walter B. Mahony, President, Board of Managers,
The New York Institute for the Education of the Blind,
815 Fifth Avenue,
New York, New York.

Dear Mr. Mahony:

Both personally and as Governor of New York I am happy to join you in an appreciation of the immeasurable services rendered by Mr. Howland S. Davis to that splendid organization, the New York Institute for the Education of the Blind.

Mr. Davis and his father between them worked unselfishly and devotedly for the Institute for over a period of half a century. Their activities were not only a godsend to the blind boys and girls who benefited by the education they received, but were also of service to the community at large. Any man who helps the physically disabled to a self-supporting, independent role in society deserves the appreciation of the people of the entire State. It is thanks to such men as Mr. Davis that the people of New York are able to be proud of the intelligent and practical consideration which blind children receive here. By guiding and planning the educational program and care of the blind youngsters, by safeguarding the finances of the Institute, and by attracting public interest to the school, Mr. Davis has established a distinguished record of unselfish energy and devotion.

It is a pleasure to salute the efforts of Mr. Davis in this important field of State service and to express my deep interest in the important and valued services rendered at the New York Institute for the Education of the Blind.

Sincerely yours,

THOMAS E. DEWEY.

TED:MD

Camp Wapanacki closed its tenth season in August. A generous public contributed to our Camp Fund, covering the cost of the operation of the summer camp and providing most of the money necessary for the construction of the new mess hall. Money for the equipment of this building has yet to be raised.

The Institute's Nursery School for blind children continues to be one of the major services of the Institute.

In the retirement of William T. Grant, William Fellowes Morgan, Jr. and John G. Jackson, from the Board of Managers, I desire to acknowledge our deep appreciation of their services over a period of years. We welcome to our Board, Reid Langdon Carr, Charles Dollard, and William Shields, Jr.

The Board of Managers deeply appreciates the devotion of the Principal, faculty and staff who have brought to their tasks a high quality of service.

WALTER B. MAHONY, President

Walter K. Earle, Recording Secretary

City of New York and County of Bronx, ss:

Walter B. Mahony of said City, being duly sworn, saith: That he is President of The New York Institute for the Education of the Blind, and that the above report signed by him is true to the best of his knowledge and belief.

Sworn to before me this 31st day of August, 1947.

The above table presents the results of Regents Examinations held during the year. Pupils' answers to Regents Examinations are written in Braille and large 24 point type, and are corrected by the teachers of the school, then sent to Albany for review by the Regents examiners. During this year there were 125 examinations claimed by the teachers of the Institute, 123 of which were allowed by the Board of Regents. The table below shows the results of these examinations held from 1942 to 1947.

The purpose of the Institute is to provide the best known facilities for blind children to secure an education adapted to their needs. Children who are totally blind or have vision so defective as to render an education by ordinary methods impracticable and who are capable of receiving instruction by the methods pursued in the Institute may be received upon application to the Board of Managers by their legal guardians.

The Institute is non-sectarian and offers a program of training for the blind child from nursery school through high school, including both academic and vocational courses.

There is no restriction as to residence. From New York they may enter regularly as State pupils from the Greater City and the counties of Westchester, Putnam, Rockland, Suffolk and Nassau, being appointed by the State Education Department; from New Jersey, upon application in proper form to the New Jersey Commission for the Blind, and from other localities by special arrangement. All communications should be addressed to

From time to time, beginning in eighteen hundred and thirty-six, the Institute has been in receipt of legacies and donations which the Managers have set apart in our Capital Fund as endowment. At the close of the fiscal year, there was on hand \$109,578.96 in cash and \$4,453,976.94 invested in approved securities.

The Board of Managers are deeply grateful for the donations from interested friends during the current and past years. This year's gifts to the amount of \$55,342.92 were received from 8,000 donors. May I express our deep appreciation of the continued generous support of the work of the school by our many friends.

The New York Institute for the Education of the Blind, by careful stewardship and the reduction in some parts of its service program, which the management of the school felt could be postponed until more funds were available, has been able to balance its budget this year. However, the increasing cost of operation is a matter of grave concern to the Board of Managers. The Institute should have new sources of revenue to continue the high standards of educational service heretofore available to our blind children. It is the earnest hope of the Board of Managers that new friends will come forward with their generous gifts, so that the work of this school need not be further curtailed.

Camp Wapanacki closed its eleventh year in August. It was one of our most successful seasons. The public contributed generously to our appeal and made possible the operation of the camp without a deficit. The new mess hall was completed and put in use during this year, thereby adding efficiency in operation as well as giving superior service to our blind children. We hope that our friends will continue their support of this important part of the work of the Institute so that sufficient funds will be available for needed repairs, maintenance of the buildings and reconstruction of the dam at the lake.

The Institute's program continues its care of veterans

of World War II and the blinded servicemen of our present armed forces.

The activities of the Principal in serving as Vice Chairman of the President's Committee on the Employment of the Physically Handicapped has increased the services of the Institute, not only to the blind, but to all of their handicapped fellow citizens.

We regret the loss by resignation of two members of our Board, Mr. Charles Dollard and Mr. Daniel H. Haynes, and desire to express the sincere appreciation of the Managers for their services in the interest of blind children. We welcome the election of Mr. Edward Ridley Finch, Jr. to our Board.

The Managers wish to record their appreciation of the devoted service rendered by the faculty and staff in the education of the blind children under their care.

WALTER B. MAHONY, President

WALTER K. EARLE, Recording Secretary

City of New York and County of Bronx, ss:

Walter B. Mahony of said City, being duly sworn, saith: That he is President of The New York Institute for the Education of the Blind, and that the above report signed by him is true to the best of his knowledge and belief.

Sworn to before me this 31st day of August, 1947.

The above table presents the results of Regents Examinations held during the year. Pupils' answers to Regents Examinations are written in Braille and large 24 point type, and are corrected by the teachers of the school, then sent to Albany for review by the Regents examiners. During this year there were 126 examinations claimed by the teachers of the Institute, 125 of which were allowed by the Board of Regents. The table below shows the results of these examinations held from 1943 to 1948.
